

August 24, 2022

Dear Parents:

Welcome to the 2022-2023 school year at Archbold High School! I'm looking forward to a wonderful year with the students!

Your son/daughter is in my English 9 class this year. I have a productive course planned for the students with a combination of literature, writing, vocabulary, grammar, and speaking skills as the main areas of study. These main areas of study will ultimately work together to help your son/daughter be college and/or career ready.

I have provided your son/daughter with course syllabus and grading policy documents that outline the class content and expectations in more detail. Please take a look at these and contact me with any questions you may have about the course. The syllabus and grading policy are available as PDFs on the Archbold High School website on the Moodle page for my English 9 class. A password is not required to access my English 9 Moodle page as a guest.

Throughout the course, your son/daughter will be asked to check the English 9 Moodle class page daily for class activities and assignments. In addition, Google Classroom will be used as needed.

It is very important to me to provide your son/daughter in English 9 with a positive learning experience that he/she can appreciate and respect throughout the year. Together we can make English 9 a rewarding experience for the students, parents, and me, the teacher.

Again, I want to welcome you to a new school year! Please feel free to contact me at any time throughout the year. I can be reached at the school via email at delick@archboldschools.org or via telephone at 419-445-5579. Additionally, remember that information for English 9 can be found on the class Moodle page, including daily homework assignments.

Together in Education,

Dawn Elick
